Commercial Permit Policy

All Contractors using the St. Landry Parish Landfill

Effective September 27, 1999, the St. Landry Parish Solid Waste Commission has implemented a permit system for contractors using the St. Landry Parish Landfill. This is being done because of the concern that out of parish waste is being improperly brought to the landfill.

The following procedures must be followed:

A contractor having a load to bring to the landfill must call 337-945-3662, at least 24 hours in advance, giving the location of the load and the name of the owner. The load must remain at the site where the work was being done.

Our Permit Officer will visit the site and inspect the load to insure the materials were generated at the site. If the materials in the load are not consistent with the work being done at the location, no permit will be issued, and the contractor will be notified. If approved, a permit will be issued for that load. The permit will be good for seven days. Loads without a permit will not be allowed to dump.

Call the St. Landry Parish Solid Waste Permit Officer, John Guidroz at 337-945-3662 for a landfill permit at **no charge**. Work hours for the Permit Officer are 6:30 a.m. to 3:00 p.m. Monday thru Friday. The Permit Officer does not work on weekends.

Thank you for your cooperation in this matter.
